During the year there were one hundred and ninety four live births, twenty-seven of which were illegitimate, giving a birth rate of 15.3 per 1,000 population lower than the national rate of 17.2.

There were ninety-nine cases of infectious diseases notified, two scarlet fever, two acute pneumonia, one meningococcal infection, two puerperal pyrexia, two pulmonary tuberculosis, five erysipelas, sixteen whooping cough and sixty-nine measles.

There were one hundred and three houses erected during the year, twenty-two by the local authority, seven pre-fabs were demolished. Applications were received and granted in respect of three standard grants and seven discretionary.
